

WORKFORCE HOUSING PROGRAM

Serving the Housing Needs of Delray Beach's Workforce

The City of Delray Beach's Workforce Housing Program is an affordable housing program that provides for the development of workforce housing units within the city limits. Developers are given the incentive to provide workforce housing units in exchange for additional units within the project.

The program is intended to serve the housing needs of people employed in the jobs that the general population of the community relies upon to make the community economically viable.

The applicant must qualify according to the annual income limits adjusted to family size for Palm Beach County.

The applicant is responsible for contacting each residential development directly regarding units that are currently available. Residential developments that are part of this program provide units for income-eligible persons at a substantially lower rate than market value.
